Our Rights David J. Bodenhamer 2007 Designed for high school students and motivated lay readers, this book will be an introduction to the rights held by American citizens under the U.S. Constitution as explored through a series of historical case studies. Each chapter will use dramatic narrative to illustrate a right in action. Most examples, but not all, will use U.S. Supreme Court cases to focus on a time when the right in question received its modern interpretation. The aim, however, will be to use each chapter to discuss how the right applies today and how courts and other interpreters seek to balance this right with important societal concerns, such as the need for order and public safety. The book will begin with a 20-page chapter on how we arrived at our modern concept of rights. The major interpretive thread will be the continual struggle to define limits on the power of the state. The chapter will introduce several key themes: our understanding of rights has emerged from history (experience); our definition and interpretation of rights is always evolving; concepts of rights are always under contention; and various actors-legislatures, executives, and courts-compete to be the final interpreter of our rights. American constitutional rights generally fall into one of three groups- rights of democracy, that is, rights required for American democracy to work effectively; rights of the accused, or due process rights that assure a

fair trial for individuals accused of crimes; and other rights of persons, including the right to privacy. A fourth category of rights are not constitutional per se, but often we conceive of them as such even though often they are statutory rights, such as the right to education... A concluding chapter will discuss other rights that may evolve as a result of current political and social movements, such as the right to health care. Along with Our Constitution and Pivotal Supreme Court Cases (working title), this book has the potential to become a core text for the annual observance of Constitution Day on September 17, which is mandated by Congress for all educational institutions receiving federal funds.

Fighting Chance Faye E. Dudden 2014-03-27 The advocates of woman suffrage and black suffrage came to a bitter falling-out in the midst of

Reconstruction, when Elizabeth Cady Stanton opposed the 15th Amendment for granting black men the right to vote but not women. How did these two causes, so long allied, come to this? In a lively narrative of insider politics, betrayal, deception, and personal conflict, *Fighting Chance* offers fresh answers to this question and reveals that racism was not the only cause, but that the outcome also depended heavily on money and political maneuver. Historian Faye Dudden shows that Stanton and Susan B. Anthony, believing they had a fighting chance to win woman suffrage after the Civil War, tried but failed to exploit windows of political opportunity, especially in Kansas. When they became most desperate, they succeeded only in selling out their long-held commitment to black rights and their invaluable friendship and alliance with Frederick Douglass. Based on extensive research, *Fighting Chance* is a major contribution to women's history and to 19th-century political history.--

The Negro Motorist Green Book Victor H. Green The idea of "The Green Book" is to give the Motorist and Tourist a Guide not only of the Hotels and Tourist Homes in all of the large cities, but other classifications that will be found useful wherever he may be. Also facts and information

that the Negro Motorist can use and depend upon. There are thousands of places that the public doesn't know about and aren't listed. Perhaps you know of some? If so send in their names and addresses and the kind of business, so that we might pass it along to the rest of your fellow Motorists. You will find it handy on your travels, whether at home or in some other state, and is up to date. Each year we are compiling new lists as some of these places move, or go out of business and new business places are started giving added employment to members of our race.

Vanguard Martha S. Jones 2020-09-08 The epic history of African American women's pursuit of political power -- and how it transformed America. In the standard story, the suffrage crusade began in Seneca Falls in 1848 and ended with the ratification of the Nineteenth Amendment in 1920. But this overwhelmingly white women's movement did not win the vote for most black women. Securing their rights required a movement of their own. In *Vanguard*, acclaimed historian Martha S. Jones offers a new history of African American women's political lives in America. She recounts how they defied both racism and sexism to fight for the ballot, and how they wielded political power to secure the equality and dignity of all persons. From the earliest days of the republic to the passage of the 1965 Voting Rights Act and beyond, Jones excavates the lives and work of black women -- Maria Stewart, Frances Ellen Watkins Harper, Fannie Lou Hamer, and more -- who were the vanguard of women's rights, calling on America to realize its best ideals.

Nellie Francis William D. Green 2021-01-05 The life and work of an African American suffragist and activist devoted to equality and freedom At her last public appearance in 1962, at 88 years old, a frail, deaf, and blind Nellie Francis was honored for her church and community service in Nashville, Tennessee. No mention was made of her early groundbreaking work as an activist in Minnesota and nationally. Even today, while her advocacy for women's suffrage and racial justice resonates through

current issues, her efforts remain largely unrecognized. In telling Nellie Francis's complete story for the first time, William D. Green finally brings the remarkable accomplishments of her complicated life into clear view, detailing her indefatigable work to advance the causes of civil rights, anti-lynching, and women's suffrage. Green's account follows Francis's path from her first public event (giving a speech on race relations to a white audience at her high school graduation) to her return to Nashville and retirement from the national stage. In the years between, she campaigned in Minnesota for racial dignity, women's suffrage, an anti-lynching law (after the infamous lynching in Duluth in 1920), and interracial collaboration through the women's club movement. She came to know most of the prominent civil rights leaders of the twentieth century and met three presidents and countless business leaders of both Black and white societies. But she also faced intense and vicious reprisals, as when, as leader of the local chapter of the NAACP, she and her husband, a prominent African American civil rights lawyer, experienced the fury of the Ku Klux Klan after moving into a white neighborhood in St. Paul. Green retrieves Nellie Francis's story from obscurity, giving this pioneer for gender and racial equality her due and providing a long-awaited service to the history of Black activism and civil rights, both regional and national. His book offers welcome insight into the universal, yet often unacknowledged, challenges that strong and engaged Black women are forced to endure when their drive to enact justice confronts racism, cultural pressure, and societal expectations.

Picturing Political Power Allison K. Lange 2020 "For as long as American women have battled for equitable political representation, those battles have been defined by images--whether drawn, etched, photographed, or

filmed. Some of these have been flattering, many of them have been condescending, and some have been scabrous. They have drawn upon prevailing cultural tropes about the perceived nature of women's roles and abilities, and they have circulated both with and without conscious political objectives. Allison K. Lange takes a systematic look at American women's efforts to control the production and dissemination of images of them in the long battle for representation, from the mid-nineteenth-century onward"--
