Critical Criminology Today Vincenzo Ruggiero 2021-08-09 What survives of the notions, principles and values of critical criminology? Faced with contexts that could not be more dramatically different to those fostering critical approaches to crime and its control, what is left of the radical theories and practical initiatives that characterized it in the 1970s? This book argues that critical criminology today can be reimagined if new concepts are elaborated, which bring academic efforts close to the practices of social movements. Building on an original collection of anti-hegemonic essays focused on specific criminological areas, including femicide, organized crime, drug use, punishment, state-corporate terrorism and financial crime, this book identifies the radical potential inherent in the choice of areas, topics and variables that critical criminologists can address today. In discussing concepts of distance, power, mercy and troublemaking, this book considers the relationship between critical criminology, social justice and activism. An accessible and compelling read, this book will appeal to all those engaged with critical criminology, sociology and cultural studies.

He considers the most high-profile stages in the criminal justice process such as the Court of Appeal's approach to the custody threshold, the framework for the sentencing of young offenders and the abiding problems of previous convictions in sentencing. Taking into account the Criminal Justice and Immigration Act 2008 and the Coroners and Justice Act 2009, the book's inter-disciplinary approach places the legislation and guidelines on sentencing in the context of criminological research, statistical trends and theories of punishment. Introductory Criminology Marcus Felson 2017-12-04 Introductory Criminology: The Study of Risky Situations takes a unique and intuitive approach to teaching and learning criminology. Avoiding the fragmentation of ideas commonly found in criminology textbooks, Marcus Felson and Mary A. Eckert develop a more practical, readable structure that engages the reader and enhances their understanding of the material. Their descriptive categories, simultaneously broad and realistic, serve better than the usual philosophical categories, such as "positivism" and "classicism," to stimulate students' interest and critical thinking. Short chapters, each broken into 5–7 sections, describe situations in which crime is most likely to happen, and explain why they are risky and what society can and can't do about crime. They create a framework to organize ideas and facts, and then link these categories to the leading theories developed by criminologists over the last 100 years. With this narrative to guide them, students remember the material beyond the final exam. This fresh new text was created by two professors to address the main points they encounter in teaching their own criminology courses. Problems solved include: reluctant readers, aversion to abstract thinking, fear of theory, and boredom with laundry lists of disconnected ideas. Felson, a leader in criminology theory with a global reputation for innovative thinking, and Eckert, an experienced criminal justice researcher, are uniquely qualified to reframe criminology in a unified arc. By doing, they offer abstractions that are useful and not overbearing; their prose is readable, and their concepts are easy to comprehend and remember. This new textbook challenges instructors to re-engage with theory and present the essence of criminological thought for adult learners, coaching students to grasp the concept before any label is attached and allowing them to emerge with deeper understanding of what each theory means and offers. Lean, with no filler or fluff like stock photos, Introductory Criminology includes the authors' graphics to crystallize and expand concepts from the text.
