Encyclopedia Britannica 15th Edition

The Know-It-All A. J. Jacobs 2004-10-01 33,000 pages 44 million words 10 billion years of history 1 obsessed man Part memoir and part education (or lack thereof), The Know-It-All chronicles NPR contributor A.J. Jacobs's hilarious, enlightening, and seemingly impossible quest to read the Encyclopaedia Britannica from A to Z. To fill the ever-widening gaps in his Ivy League education, A.J. Jacobs sets for himself the daunting task of reading all thirty-two volumes of the Encyclopaedia Britannica. His wife, Julie, tells him it's a waste of time, his friends believe he is losing his mind, and his father, a brilliant attorney who had once attempted the same feat and quit somewhere around Borneo, is encouraging but, shall we say, unconvinced. With self-deprecating wit and a disarming frankness, The Know-It-All recounts the unexpected and comically disruptive effects Operation Encyclopedia has on every part of Jacobs's life -- from his newly minted marriage to his complicated relationship with his father and the rest of his charmingly eccentric New York family to his day job as an editor at Esquire. Jacobs's project tests the outer limits of his stamina and forces him to explore the real meaning of intelligence as he endeavors to join Mensa, win a spot on Jeopardy!, and absorb 33,000 pages of learning. On his journey he stumbles upon some of the strangest, funniest, and most profound facts about every topic under the sun, all while battling fatigue, ridicule, and the paralyzing fear that attends his first real-life responsibility -- the impending birth of his first child. The Know-It-All is an ingenious, mightily entertaining memoir of one man's intellect, neuroses, and obsessions and a soul-searching, ultimately touching struggle between the all-consuming quest for factual knowledge and the undeniable gift of hard-won wisdom.

The Hunchback of Notre Dame Victor Hugo 2016-11-08 The gypsy street dancer Esmeralda captures the hearts of many men, including those of Captain Phoebus and Pierre Gringoire, but especially Quasimodo and his guardian Archdeacon Claude Frollo. Frollo is torn between his obsessive lust for Esmeralda and the rules of the Notre Dame Cathedral. His obsessive lust for La Esmerelda has made him renounce God and study alchemy and black magic Esmerelda is falsely accused and sentenced to hang . Frollo visits her in jail and declares his love. He begs her to love him but she calls him a "goblin-monk" and a murderer. Before her execution, Esmerelda is publicly humiliated in front of Notre Dame. Looking across the square, she suddenly sees Phoebus and calls out his name. Just then, Quasimodo swings down on a rope from Notre Dame and carries her back to the cathedral, crying out "Sanctuary!!" He had fallen in love with her and had been planning her escape all along.

The Britannica Guide to Genetics Britannica 2009 The Britannica Guide to Genetics is the ideal companion for students or general popular science readers who wish to know the facts behind the latest research and discoveries.After the Introduction from bestselling science writer and geneticist Steve Jones the book covers the entire history of genetics from Gregor Mendel_s first experiments with peas at the end of the nineteenth century to the announcement of the Human Genome Project in 1998.Throughout the twentieth century new discoveries about the qualities of our genes have been heralded as essential leaps of progress in modern science forcing us to ask how much do our genes determine our personalities? What makes us different from other species? But as we enter the twenty-first century and we have begun to manipulate genes and the genome the questions have changed.

The Encyclopedia of Philosophy Donald M. Borchert 1996 The first English-language reference of its kind, The Encyclopedia of Philosophy was hailed as 'a remarkable and unique work' (Saturday Review) that contained 'the international who's who of philosophy and cultural history' (Library Journal).

Britannica Student is curriculum correlated and a recent winner of the 2008 Teachers Choice Award and 2010 AEP Distinguished achievement award.

The Recognitions William Gaddis 2020-11-24 A postmodern masterpiece about fraud and forgery by one of the most distinctive, accomplished novelists of the last century. The Recognitions is a sweeping depiction of a world in which everything that anyone recognizes as beautiful or true or good emerges as anything but: our world. The book is a masquerade, moving from New England to New York to Madrid, from the art world to the underworld, but it centers on the story of Wyatt Gwyon, the son of a New England minister, who forsakes religion to devote himself to painting, only to despair of his inspiration. In expiation, he will paint nothing but flawless copies of his revered old masters—copies, however, that find their way into the hands of a sinister financial wizard by the name of Recktall Brown, who of course sells them as the real thing. Dismissed uncomprehendingly by reviewers on publication in 1955 and ignored by the literary world for decades after, The Recognitions is now established as one of the great American novels, immensely ambitious and entirely unique, a book of wild, Boschian inspiration and outrageous comedy that is also profoundly serious and sad.

Britannica Concise Encyclopedia Encyclopaedia Britannica, Inc. 2008-05-01 Britannica Concise Encyclopedia is the perfect resource for information on the people, places, and events of yesterday and today. Students, teachers, and librarians can find fast facts combined with the quality and accuracy that have made Britannica the brand to trust. A tool for both the classroom and the library, no other desk reference can compare.

History of the World Map by Map DK 2018-10-04 Maps don't just show us where to go, but also where we've been. A stunning overview of all human history, side by side with 140 custom maps. Learn how something like the printing press can define a time, or how the Allies in Europe could defeat the Nazis. There is so much to read about in this remarkable history book, and just as much to look at. Maps are more than the topography of the Earth, or the borders of countries. Maps can represent the movement of people and ideas, and they provide a unique way to explain historical themes and explore sweeping periods of time. This stunning visual reference book starts with the evolution and migration of our oldest ancestors out of Africa. You can then look up maps about the Greece and Persian War, the Mongol Conquests, Medieval Europe's trade routes, and the rise of the Ottomans. There are maps about the colonisation of North America, the scientific revolution, Napoleon's advances, and Britain's control of India. There's more in later centuries, such as the Age of Imperialism, the American Civil War, industrialised Europe and the transformation of Japan. This history book reaching across millennia gives you a broad view of the pivotal events in our past. With 140 maps, complimented with pictures, info boxes and timelines, there's so much to enjoy and learn about. You will gain a strong understanding of some of the forces and movements across continents that have shaped our world. A Map Guided Tour of World History Inside this beautiful cover is concise and fascinating historical information, 140 custom maps and many ways to engage in history that will interest many readers, from students wanting additional resources for school, to history buffs that love a good book and cartography. Go on guided tour through time:
- Prehistory 7 MYA-3000 BCE
- The Ancient World 3000 BCE - 500 CE
- Middle Ages 500-1450 CE
- The Early Modern World 1450-1700
- Revolution and Industry 1700-1850
- Progress and Empire 1850-1914
- The Modern World 1914-Present

The Encyclopaedia Britannica 2020-12-15 This book has been considered by academicians and scholars of great significance and value to literature. This forms a part of the knowledge base for future generations. So that the book is never forgotten we have represented this book in a print format as the same form as it was originally first published. Hence any marks or annotations seen are left intentionally to preserve its true nature.

Index L-Z British Library 2000 Over 2,000 manuscripts accessioned between 1991 and 1995 are described and indexed in this latest volume of the Catalogue of Additions. They range from a 9th-century fragment of St Aldhelm's work to papers of the contemporary author Edward Upward and the economist Sir Roy Harrod. The Trumbull family papers in 380 volumes are the largest of the historical collections catalogued here, whilst modern composers are especially well represented by the comprehensive archives of Cornelius Cardew, Humphrey Searle, Andrzej Panufnik and Sir Peter Maxwell Davies. Notable single volumes include two Books of Hours of the 14th and 15th centuries and Sir William Dugdale's "Book of Monuments" (1640-1641).

The New Encyclopaedia Britannica 1985

Writing Space Jay David Bolter 2001-01-01 This second edition of Jay David Bolter's classic text expands on the objectives of the original volume, illustrating the relationship of print to new media, and examining how hypertext and other forms of electronic writing refashion or "remediate" the forms and genres of print. Reflecting the dynamic changes in electronic technology since the first edition, this revision incorporates the Web and other current standards of electronic writing. As a text for students in composition, new technologies, information studies, and related areas, this volume provides a unique examination of the computer as a technology for reading and writing.
The Myth of the Britannica Harvey Einbinder 1964
