Colonial Ch'olti' Robbie A. Haertel 2012-10-09 At the time of the Spanish conquest, Ch'olti' was spoken throughout much of the southern Maya lowlands in what is present-day Petén and Chiquimula, and is closely related to that spoken by the authors of the Classic Maya inscriptions. This book presents for the first time a facsimile, transcription, English and Spanish translation, and grammatical analysis of the Morán Manuscript, a Colonial-era document that provides the sole attestation of Ch'olti'. In addition to its value as a chronicle of the Colonial period, the Morán Manuscript is crucial to our understanding of the Classic Maya, particularly their language, captured in thousands of intricately carved and painted hieroglyphic inscriptions. Robertson, Law, and Haertel, regarded as the ablest interpreters of Ch'olti' now working in Mayan linguistics, provide not only a painstaking presentation of language data but also a detailed history of the manuscript itself. They discuss the document's probable authorship, investigate where and by whom Ch'olti' was spoken at contact, and infer how speakers maintained their expressive capabilities in the face of colonial oppression. The transcribed Ch'olti' texts feature an orthographically standardized version with a morpheme-by-morpheme gloss, a literal English translation that preserves many of the poetic structures and metaphors, and a flowing translation in both English and Spanish. The publication of this document marks a major contribution to the fields of Maya epigraphy, Mayan linguistics, ethnohistory, and Mesoamerican languages. It will serve as the definitive presentation of the Morán Manuscript and stand as a major contribution to further understanding the language of the Maya inscriptions in Mexico and Guatemala.

Establishing an Effective and Practical Attestation/appraisal System at St Dominic's College Elizabeth Hill 2002 Examines how one secondary school faced the issue of implementing the document Professional standards: criteria for quality teaching: secondary school teachers and unit holders, introduced by the Ministry of Education in 1999, and the associated attestation process. Greeks, Books and Libraries in Renaissance Venice Rosa Maria Piccione 2020-11-09 What does writing Greek books mean at the height of the Cinquecento in Venice? The present volume provides fascinating insights into Greek-language book production at a time when printed books were already at a rather advanced stage of development with regards to requests, purchases and exchanges of books; copying and borrowing practices; relations among intellectuals and with institutions, and much more. Based on the investigation into selected institutional and private libraries - in particular the book collection of Gabriel Severos, guide of the Greek Confraternity in Venice - the authors present new pertinent evidence from Renaissance books and documents, discuss methodological questions, and propose innovative research perspectives for a sociocultural approach to book histories.

On the Track of the Books Roberta Berardi 2019-06-17 This book offers the hint for a new reflection on ancient textual transmission and editorial practices in Antiquity. In the first section, it retraces the first steps of the process of ancient writing and editing. The reader will discover how the book is both a material object and a metaphorical personification, material or immaterial. The second section will focus on corpora of Greek texts, their formation, and their paratextual apparatus. Readers will explore various issues dealing with the mechanisms that are at the basis of the assembling of ancient Greek texts, but great attention will also be given to the role of ancient scholarly work. The third section shows how texts have two levels of authorship: the author of the text, and the scribe who copies the text. The scribe is not a medium, but plays a crucial role in changing the text. This section will focus on the protagonists of some interesting cases of textual transmission, but also on the books they manufactured or kept in the libraries, and on the words they engraved on stones. Therefore, the fresh voices of the contributors of this book, offer new perspectives on established research fields dealing with textual criticism.

Solidarity Perfected Kevin McCrudden 2008-12-10 This book provides an exegetical and theological treatment of the theme of the perfection of Jesus in the Letter to the Hebrews by demonstrating how perfection terminology functions to comment on the beneficent, compassionate character of Jesus. To depict Jesus as being made perfect or complete is Hebrews' way of affirming Jesus' solidarity with, and compassion for, those socially persecuted Christians who constituted Hebrews' target audience.

Indiana Notary Public Guide Indiana Secretary of State 2019-04-06 A notary is a public official responsible for independently verifying signatures and oaths. Depending on how a document is written, a notarization serves to affirm the identity of a signer and the fact that they personally executed their signature. A notarization, or notarial act, officially documents the identity of a party to a document or transaction and the occasion of the signing that others can rely upon, usually at face value. A notary's authentication is intended to be reliable, to avoid the inconvenience of having to locate a signer to have them personally verify their signature, as well as to document the execution of a document perhaps long after the lifetime of the signer and the notary. An oath is a sworn statement. In most cases a person will swear that a written statement, oral statement, or testimony they are about to give is true. A notary can document that the notary administered an oath to an individual.

An Aramaic Approach to Q Maurice Casey 2002-09-26 This is the first book to examine the Aramaic dimension of Q since the Aramaic Dead Sea scrolls made such work more feasible. Maurice Casey gives a detailed examination of key passages in Matthew and Luke's gospels, demonstrating that they used two different Greek translations of an Aramaic source, which can be reconstructed. He overturns the conventional model of Q as a single Greek document, and shows that Jesus said everything in the original Aramaic source. Further analysis of other gospel passages shows the evangelists editing a Greek translation of an Aramaic source. On one, it can be shown that Mark utilizes a different Aramaic source. A complex model of Q is thus proposed. Casey argues that Aramaic sources behind part of Q are of extremely early date, and should contribute significantly to the quest for the historical Jesus.

Introduction to Information Retrieval Christopher D. Manning 2008-07-07 Class-tested and coherent, this textbook teaches classical and web information retrieval, including web search and the related areas of text classification and text clustering from basic concepts. It gives an up-to-date treatment of all aspects of the design and implementation of systems for gathering, indexing, and searching documents; methods for evaluating systems; and an introduction to the use of machine learning methods on text collections. All the important ideas are explained using examples and figures, making it perfect for introductory courses in information retrieval for advanced undergraduates and graduate students in computer science. Based on feedback from extensive classroom experience, the book has been carefully structured in order to make teaching more natural and effective. Slides and additional exercises (with solutions for lecturers) are also available through the book's supporting website to help course instructors prepare their lectures.

Statements on Standards for Accounting and Review Services AICPA 2016-11-07 The Accounting and Review Services Committee (ARSC) has issued Statement on Standards for Accounting and Review Services No. 21, Statements on Standards for Accounting and Review Services: Clarification and Recodification. The issuance of SSARS No. 21 represents a major milestone in the ARSC's project to clarify and revise the standards for reviews, compilations, and engagements to prepare financial statements. To assist readers to easily locate information, a detailed table of contents is provided at the beginning of the SSARS. This statement recodifies and supersedes all outstanding SSARSs through No. 20, except SSARS No. 14, Compilation of Pro Forma Financial Information. SSARS No. 21 is effective for reviews, compilations, and engagements to prepare financial statements for periods ending on or after December 15, 2015 but early implementation is permitted. This statement is a standalone SSARS and is not a codification of all clarified SSARSs. This statement has been codified in AICPA Professional Standards, which contains a complete codification of Statements on Standards for Accounting and Review

Services. Practitioners are advised to use the codified version of this SSARS as they prepare to evaluate and update their methodologies, and prepare for changes precipitated by the clarity project.

Translating Official Documents Roberto Mayoral Asensio 2014-07-16 Official translations are generally documents that serve as legally valid instruments. They include anything from certificates of birth, death or marriage through to academic transcripts or legal contracts. This field of translation is now as important as it is fraught with difficulties, for it is only in a few areas that the cultural differences are so acute and the consequences of failure so palpable. In a globalizing world, our official institutions increasingly depend on translations of official documents, but little has been done to elaborate the skills and dilemmas involved. Roberto Mayoral deals with the very practical problems of official translating. He points out the failings of traditional theories in this field and the need for revised concepts such as the virtual document, pragmatic constraints, and risk analysis. He details aspects of the social contexts, ethical norms, translation strategies, different formats, fees, legal formulas, and ways of solving the most frequent problems. Care is taken to address as wide a range of cultural contexts as possible and to stress the active role of the translator. This book is intended as a teaching text for the classroom, for self-learning, or for professionals who want to reflect on their practice. Activities and exercises are suggested for each chapter, and information is included on professional associations and societies across the globe.

Arizona Notary Public Reference Manual Arizona Secretary of State 2019-04-06 In Arizona, a notary public is a public officer commissioned by the Secretary of State to perform notarial acts, as defined in the Arizona Revised Statutes (see Chapter 5). A notary, in essence, serves as an impartial witness pursuant to A.R.S. ? 41- 328(B). Government offices, businesses and the public rely on the accuracy and integrity of notaries public. This means the notary should take the required steps to authenticate signatures and ensure that all notarizations are properly completed and performed. Many documents require a notarization in an effort to deter fraud, to prove the authenticity of the signature and to ensure that a signature was made willingly and not under duress. Therefore, it's essential that a notary accept a valid form of identification, as defined in statutes, to determine that a signer is who he or she claims to be. Because the prevention of fraud and deception is central to the notary's role, it is essential that a notary have no conflict of interest when notarizing a document.
