Understanding Me Herbert Marshall Mcluhan 2010-06-25 Unbuttoned Mcluhan! An intimate exploration of Marshall Mcluhan’s ideas in his own words In the last twenty years of his life, Marshall Mcluhan published – often in collaboration with others – a series of books that established his reputation as the pre-eminent seer of the modern age. It was Mcluhan who made the distinction between “hot” and “cool” media. It was he who observed that “the medium is the message” and who tossed off dozens of other equally memorable phrases from “the global village” and “pattern recognition” to “feedback” and “iconic” imagery. Mcluhan was far more than a pithy-phrase maker, however. He foresaw – at a time when the personal computer was a teckie fantasy – that the world would be brought together by the internet. He foresaw the transformations that would be wrought by digital technology. He understood, before any of his contemporaries, the consequences of the revolution that television and the computer were bringing about. In many ways, we’re still catching up to him. In *Understanding Me*, Stephanie Mcluhan and David Staines have brought together eighteen previously unpublished lectures and interviews by or involving Marshall Mcluhan. They have in common the informality and accessibility of the spoken word. In every case, the text is the transcript taken down from the film, audio, or video tape of the actual encounters – this is not what Mcluhan wrote but what he said. The result is a revelation: the seer who often is thought of as aloof and obscure is shown to be funny, spontaneous, and easily understood.

America and Cosmic Man Wyndham Lewis 2013-10 This is a new release of the original 1949 edition.

The Medium and the Light Michael Mcluhan 2010-03-01 Say the name Marshall Mcluhan and you think of the great discover's explorations of the media. But throughout his life, Mcluhan never stopped reflecting profoundly on the nature of God and worship, and on the traditions of the Church. Often other intellectuals and artists would ask him incredulously, Are you really a Catholic? He would answer, Yes, I am a Catholic, the worst kind -- a convert, leaving them more baffled than before. Here, like a golden thread lining his public utterances on the media, are Mcluhan’s brilliant probes into the nature of conversion, the church's understanding of media, the shape of tomorrow's church, religion and youth, and the God-making machines of the modern world. This fascinating collection, gathered from his many and scattered remarks, essays, and other writings, shows the deeply Christian side of a man widely considered the most important thinker of our time, a man whose insights into media and culture have revolutionized the field of media study and the way we see the world.

From Cliché to Archetype Marshall Mcluhan 2011 Mcluhan mines the greats of modern literature, such as Yeats, Eliot and Pound, and points the way to richer understanding of their work. Discussion ranges over conventional topics of literary analysis, though never in conventional fashion, because Mcluhan deliberately stakes his turf in a manner that draws technology and culture together. As a result, the key terms clich and archetype are not confined to language but are shown to have counterparts in the non-linguistic world.

Media and Formal Cause Marshall Mcluhan 2011 Reviews No one understood causality, whether Aristotelian or electric, like Marshall Mcluhan. Now, in *Media and Formal Cause*, no one reveals understanding of formal cause in the digital environment better than Mcluhan's protégé son, Eric. In the foreword, Lance Strate writes that M. Mcluhan's *Understanding Media* was one of the most important books of the 20th century. For anyone who wishes to understand how things truly work, *Media and Formal Cause* is one of the most important books of the 21st. Arguably formal cause has been the least understood but the most intellectually important of all of Aristotle's four agents or processes of causation. This small volume proffers a large understanding of this formative, previously mysterious level of invisible creation. Three essays by Marshall (one with co-author Barry Nevitt) and a powerful new essay by Eric give new meaning to ye olde cliché, “like father, like son”. While reading writing that is engaging, encyclopedic, and electric, we discover that formal cause is not what you think... but it is vital to how you think. -Thomas Cooper, Professor of Visual and Media Arts, Emerson College; author of *Fast Media/Media Fast* In *Media and Formal Cause* Eric Mcluhan updates an important part of his father's work that is often overlooked, the quixotic role of causality in making sense of how new media change the way we construct our environment and our communication. How does novelty cause antiquity? When do effects precede causes? Read on, and you shall find out. -David Rothenberg, Professor of Philosophy and Music, New Jersey Institute of Technology; author of *Why Birds Sing* and *Thousand Mile Song* Like his mentor, Gilbert Keith Chesterton, Marshall Mcluhan was often accused of indulging in mere paradox. But *Media and Formal Cause* demonstrates the profound understanding that underlies the work of both Chesterton and Mcluhan, the understanding that we live in a paradoxical world. Both Mcluhan and Chesterton attempted to jar readers loose from what Cardinal Newman called “paper logic” into a recognition of the total situation in which we find ourselves. This very readable and accessible volume should greatly assist new readers of Mcluhan and remind long time students of just how challenging and exhilarating his explorations were. -Philip Marchand, author, Marshall Mcluhan: The Medium and the Messenger A sage and perceptive quartet of essays which capture and extend a still quixotessentially unique way of thinking about media, via patterns and connections that harken to the ancient world and redound to our present and future. -Paul Levinson, Professor of Communication and Media Studies, Fordham University; author of *Digital Mcluhan*, and of *New New Media*

Digital Scholarly Editing Matthew James Driscoll 2016-08-15 This volume presents the state of the art in digital scholarly editing. Drawing together the work of established and emerging researchers, it gives pause at a crucial moment in the history of technology in order to offer a sustained reflection on the practices involved in producing, editing and reading digital scholarly editions--and the theories that underpin them. The unrelenting progress of computer technology has changed the nature of textual scholarship at the most fundamental level: the way editors and scholars work, the tools they use to do such work and the research questions they attempt to answer have all been affected. Each of the essays in *Digital Scholarly Editing* approaches these changes with a different methodological consideration in mind. Together, they make a compelling case for re-evaluating the foundation of the discipline--one that tests its assertions against manuscripts and printed works from across literary history, and the globe. The sheer breadth of *Digital Scholarly Editing*, along with its successful integration of theory and practice, help redefine a rapidly-changing field, as its firm grounding and future-looking ambit ensure the work will be an indispensable starting point for further scholarship. This collection is essential reading for editors, scholars, students and readers who are invested in the future of textual scholarship and the digital humanities.

War and Peace in the Global Village Marshall Mcluhan 2021-05-18 War and Peace in The Global Village is a collage of images and text that sharply illustrates the effects of electronic media and new technology on man. Marshall Mcluhan wrote this book thirty years ago and following its publication predicted that the forthcoming information age would be “a transitional era of profound pain and tragic identity quest.” Marshall Mcluhan illustrates the fact that all social changes are caused by introduction of new technologies. He interprets these new technologies as extensions or "self-amputations of our own being," because technologies extend bodily reach. Mcluhan's ideas and observations seem disturbingly accurate and clearly applicable to the world in which we live. War and Peace in the Global Village is a meditation on accelerating innovations leading to identity loss and war. Initially published in 1968, this text is regarded as a revolutionary work for its depiction of a planet made ever smaller by new technologies. A mosaic of pointed insights and probes, this text predicts a world without centres or boundaries. It illustrates how the electronic information travelling around the globe at the speed of light has eroded the rules of the linear, literate world. No longer can there be fixed positions or goals.

Culture Is Our Business Marshall Mcluhan 2015-02-12 Culture Is Our Business is Marshall Mcluhan's sequel to *The Mechanical Bride: Folklore of Industrial Man*. Returning to the subject of advertising newly armed with the electric sensibility that informed *The Gutenberg Galaxy, Understanding Media, and The Medium Is the Message*, Mcluhan takes on the mad men (a play on the ad men of Madison Avenue) of the sixties. Approaching commercial messages as unacknowledged art forms and cultural artifacts, Mcluhan delivers a series of probes that pick apart their meanings and underlying values, their paradoxes and paralogisms, and their overt function as persuasion and propaganda. Through humor, satire, and a poetic sensibility, he provides us with a serious exploration of the consumer culture that emerged out of the electronic media environment. In keeping with the participatory ethos of the Internet that Mcluhan so clearly anticipated, this is a book that is meant to open the door to further study, reflection, and discussion, and to encourage the development of critical reception on the part of the reader.

The Refugees Viet Thanh Nguyen 2017-02-07 From the author of *The Sympathizer*, winner of the 2016 Pulitzer Prize for Fiction, *The Refugees* is the second piece of fiction from a powerful voice in American letters, praised as “beautiful and heartrending” (Joyce Carol Oates, *New Yorker*), “terrific” (Chicago Tribune), and “an important and incisive book” (Washington Post) Published in hardcover to astounding acclaim, *The Refugees* is the remarkable debut collection of short stories by Viet Thanh Nguyen, winner of the 2016 Pulitzer Prize for Fiction for his novel *The Sympathizer*. In these powerful stories, written over a period of twenty years and set in both Vietnam and America, Nguyen paints a vivid portrait of the experiences of people leading lives between two worlds, the adopted homeland and the country of birth. With the same incisiveness as in *The Sympathizer*, in *The Refugees* Viet Thanh Nguyen gives voice to the hopes and expectations of people making life-changing decisions to leave one country for another, and the rifts in identity, loyalties, romantic relationships, and family that accompany relocation. From a young Vietnamese refugee who suffers profound culture shock when he comes to live with two gay men in San Francisco, to a woman whose husband is suffering from dementia and starts to confuse her for a former lover, to a girl living in Ho Chi Minh City whose older half-sister comes back from America having seemingly accomplished everything she never will, the stories are a captivating testament to the dreams and hardships of migration. The second work of fiction by a major new voice in American letters, *The Refugees* is a beautifully written and sharply observed book about the aspirations of those who leave one country for another, and the relationships and desires for self-fulfillment that define our lives.

Medium Is the Message Marshall Mcluhan 1889

The Medium Is the Message Marshall Mcluhan 2011-06 The Medium is the Message remains Marshall Mcluhan's most popular book, perhaps as influential as *Understanding Media*. With every technological and social advance, Mcluhan's theories reveal how prescient his insights actually proved to be. Mcluhan's proclamation that 'the media work us over completely' becomes more evident every day. In his words, 'so pervasive are they in their personal, political, economic, aesthetic, psychological, moral, ethical and social consequences that they leave no part of us untouched, unaffected, or unaltered.'

The Lost Tetrads of Marshall Mcluhan Marshall Mcluhan 2017-05 Marshall Mcluhan was the visionary theorist best known for coining the phrase “the medium is the message.” His work prefigures and underlies the themes of writers and artists as disparate and essential as Andy Warhol, Nam June Paik, Neil Postman, Seth Godin, Barbara Kruger, and Douglas Rushkoff, among countless others. Shortly before his death, together with his media scholar son Eric, Mcluhan worked on a new literary/visual code--almost a cross between hieroglyphics and poetry--that he called “the tetrads.” This was the ultimate theoretical framework for analyzing any new medium, a koan-like poetics that transcends traditional means of discourse. Some of the tetrads were published, but only a few. Now Eric Mcluhan has recovered all the “lost” tetrads that he and his father developed, and accompanies them here with accessible explanations of how they function.

The Gutenberg Galaxy Marshall Mcluhan 2011 Presents Mcluhan's predictions of dramatic technological innovations that have changed how we communicate.

Marshall Mcluhan Douglas Coupland 2010-11-30 Surveys the life and career of the social theorist best known for the quotation, "The medium is the message," who helped shape the culture of the 1960s and predicted the future of television and the rise of the Internet.

The Neocolonialism of the Global Village Ginger Nolan 2018-07-10 Uncovering a vast maze of realities in the media theories of Marshall Mcluhan The term “global village”--coined in the 1960s by Marshall Mcluhan--has persisted into the twenty-first century as a key trope of techno-humanitarian discourse, casting economic and technical transformations in a utopian light. Against that tendency, this book excavates the violent history, originating with techniques of colonial rule in Africa, that gave rise to the concept of the global village. To some extent, we are all global villagers, but given the imbalances of semiotic power, some belong more thoroughly than others. Reassessing Mcluhan's media theories in light of their entanglement with colonial and neocolonial techniques, Nolan implicates various arch-paradigms of power (including “terra-power”) in the larger prerogative of managing human populations.
