*The Real World of Democracy* Crawford Brough Macpherson 1972 In The Real World of Democracy, C. B. Macpherson examines the rival ideas of democracy - the communist, Third World, and Western-liberal variants - and their impacts on one another. Macpherson, who was a professor of political science at the University of Toronto and an Officer of the Order of Canada, suggests that the West need not fear any challenge to liberal democracy if it is prepared to re-examine and alter its own values.

*Gandhi's Rise to Power* Judith M. Brown 1972 Dr Brown presents a political study of the first clearly defined period in Mahatma Gandhi's Indian career, from 1915 to 1922. The period began with Gandhi's return from South Africa as a stranger to Indian politics, witnessed his dramatic assertion of leadership in the Indian National Congress of 1920 and ended with his imprisonment by the British after the collapse of his all-India civil disobedience movement against the raj. Focusing on Gandhi, this book nevertheless investigates the changing nature of Indian politics. It aims to study precisely what Gandhi did, on whom he relied for support, how he interacted with other nationalist leaders and how he saw his own role in Indian public life. Unlike the usual interpretation of Gandhi's rise to power as based on a charismatic appeal to the Indian masses, this study argues that his influence depended on a capacity to generate a network of lesser leaders, or subcontractors, who would organise their constituencies for him, whether these were caste, communal or economic groups or whole areas.

*Ideas and the Novel* Mary McCarthy 2013-10-15 In this eye-opening book, Mary McCarthy shares her love of the novel and her fear that it is becoming an endangered literary species “He had a mind so fine that no idea could violate it.” So begins Mary McCarthy’s fascinating critical analysis of the novel (and its practitioners) from her double-edged perspective as both reader and writer. The bestselling author of The Group takes T. S. Eliot’s quote about Henry James, written in 1918, as a jumping-off point to discuss how the novel has evolved—or not—in the last century. In this lively, erudite book, McCarthy throws down the gauntlet: Why did the nineteenth century produce novels of ideas while the twentieth century is so lacking in serious fiction? She wins out the underachieving (read: overhyped) authors from the geniuses, explores why Jean Valjean personifies man’s conscience in Victor Hugo’s Les Misérables, and shows how Stendhal’s The Red and the Black “illustrates the evil effects of reading.” She also tackles the role of the omniscient narrator and analogizes novels to air travel. With its exploration of authors from Balzac to D. H. Lawrence, Ideas and the Novel holds inviolate the idea of the novel as a means ultimately of liberating ideas. This ebook features an illustrated biography of Mary McCarthy including rare images from the author’s estate.
